All,

I have attached two Word Documents for the Series K studies.

The first is for the short term study, SeriesK/01/03 (AA02981). The only changes are to the number of subjects. This study has been confirmed.

The second is for the long term study, SeriesK/02/03 (AA03468). These are proposed dates and will need confirmation from you.

Please let me know if the long term dates are acceptable.

Thanks
Kim
